Nutritional aspects of exercise *(Symposium Proceedings: 16–18 June 1997)*

Chairs: M. J. Gibney, *Trinity College, Dublin*; **R. Maughan,** *University Medical School, Aberdeen*; **I. Macdonald,** *Nottingham*

Dietary macro- and micronutrient requirements of endurance athletes.
Clyde Williams 1–8

Free radicals, exercise and antioxidant supplementation.
Mitchell Kanter 9–13

The sports drink as a functional food: formulations for successful performance.
R. J. Maughan 15–23

Influence of diet on the metabolic responses to exercise.
Lawrence L. Spriet & Sandra J. Peters 25–33

Amino acid metabolism, branched-chain amino acid feeding and brain monoamine function.
P. M. Jakeman 35–41

Nutrition, exercise and the immune system.
Bente Klarlund Pedersen, Kenneth Ostrowski, Thomas Rohde & Helle Bruunsgaard 43–47

Use of endogenous carbohydrate and fat as fuels during exercise.
Wade H. Martin III & Samuel Klein 49–54

The nutritional demands of very prolonged exercise in man.
Mike Stroud 55–61

Exercise and postprandial lipid metabolism.
Adrianne E. Hardman & Sara L. Herd 63–72

Effect of high-fat diets on exercise performance.
Bente Kiens & Jørn W. Helge 73–75

The relationship between physical activity and food intake.
Neil A. King 77–84

Exercise and obesity.
Tracy J. Horton & James O. Hill 85–91

Exercise prescription for weight management.
Andrew P. Hills & Nuala M. Byrne 93–103

Early environmental, genetic and nutritional influences on adult disease
(Symposium Proceedings: 9–11 July 1997)

Chair: C. J. Seal, *University of Newcastle*

Maternal nutrition, placental growth and fetal programming.
Keith Godfrey & Sian Robinson 105–111

Glucocorticoids and the preparation for life after birth: are there long-term consequences of the life insurance?
Abigail L. Fowden, Juan Li & Alison J. Forhead 113–122

Fetal origins of cardivascular risk: evidence from studies in children.
Peter H. Whincup 123–127
Reproductive outcomes in women prenatally exposed to undernutrition: a review of findings from the Dutch famine birth cohort.
L. H. Lumey 129–135

Can nutrition intervention make a difference? *(Symposium Proceedings: 9–11 July 1997)*

Chair: C. J. K. Henry, *Oxford Brookes University*

Combating micronutrient deficiencies: problems and perspectives.
David J. Alnwick 137–147
The anthropometric status of schoolchildren in five countries in the Partnership for Child Development.
Partnership for Child Development 149–158
Vitamin A and public health: challenges for the next decade.
David A. Ross 159–165
Nutrition interventions to reduce diarrhoea morbidity and mortality.
Ann Ashworth 167–174

Plenary Lectures *(9–11 July 1997)*

Gene–environment interactions in the pathogenesis of type 2 diabetes mellitus: lessons learned from the Pima Indians.
Richard E. Pratley 175–181
Diet and cancer prevention: the Concerted Action Polyp Prevention (CAPP) Studies.
J. Burn, P. D. Chapman, D. T. Bishop & J. Mathers 183–186
Genetics, calcium intake and osteoporosis.
John A. Eisman 187–193

Nutrient regulation of cell proliferation and death *(Symposium Proceedings: 9–11 July 1997)*

Chair: D. S. Parker, *University of Newcastle upon Tyne*

Nutritional and hormonal regulation of hair follicle growth and development.
Hugh Galbraith 195–205
Nutritional and hormonal control of skeletal-muscle cell growth and differentiation.
John M. Brameld, Peter J. Buttery, Janet M. Dawson & Jane M. M. Harper 207–217
Nutrient regulation of intestinal proliferation and apoptosis.
J. C. Mathers 219–223

Student Symposium *(Symposium Proceedings: 9–11 July 1997)*

Chair: R. Bennett, *University of Newcastle upon Tyne*

Some aspects of the metabolic response to surgical trauma.
A. R. Bosagh Zadeh & P. W. Emery 225–229
The role of nutrition and diet in rheumatoid arthritis.
Rosemary H. Martin 231–234
The effect of prenatal diet and glucocorticoids on growth and systolic blood pressure in the rat.
David S. Gardner, Alan A. Jackson & Simon C. Langley-Evans 235–240
Nutrition, immunity and the fetal and infant origins of disease hypothesis in developing countries.
Sophie E. Moore 241–247

Nutrient regulation of gene expression *(Symposium Proceedings: 9–11 July 1997)*

Chairs: M. J. Rennie, *University of Dundee*; **M. Elia,** *Cambridge*

Molecular biological approaches to nutrient–gene interactions.
John K. Chesters 249–256

Response of placental amino acid transport to gestational age and intrauterine growth retardation.
James C. Matthews, Mark J. Beveridge, Marc S. Malandro, Michael S. Kilberg & Donald A. Novak 257–263

Regulation of liver gene expression by glucose.
Franck Rencurel & Jean Girard 265–275

Modulation of immune function by dietary fatty acids.
Elizabeth A. Miles & Philip C. Calder 277–292

Post-translational events in the intracellular transit of apolipoprotein-B: modulation by dietary lipids.
Joan A. Higgins, John Kendrick, Jane Wilkinson & Ian Cartwright 293–299

Antioxidant micronutrients and gene expression.
M. J. Jackson, A. McArdle & F. McArdle 301–305

A role of zinc in the regulation of gene expression.
Robert J. Cousins 307–311

Measuring nutrient intake *(Symposium Proceedings: 9–11 July 1997)*

Chair: J. C. Mathers, *University of Newcastle upon Tyne*

Measuring food intake in farm and laboratory animals.
Bert J. Tolkamp, Jon E. L. Day & Ilias Kyriazakis 313–319

Measuring food intake in wild animals: primates.
David J. Chivers 321–332

Measuring intake in free-living human subjects: a question of bias.
Lauren Lissner, Berit L. Heitmann & Anna Karin Lindroos 333–339

Nutrition Society Medal Lecture *(9–11 July 1997)*

Appetite, feeding behaviour and energy balance in human subjects.
R. James Stubbs 341–356

Measuring nutrient intake *(Symposium Proceedings: 9–11 July 1997)*

Chair: J. C. Mathers, *University of Newcastle upon Tyne*

Methodological issues relating to the measurement of food, energy and nutrient intake in human laboratory-based studies.
R. J. Stubbs, A. M. Johnstone, L. M. O'Reilly & S. D. Poppitt 357–372

Sir David Cuthbertson Prize Medal Lecture *(2–4 December 1997)*

Chair: M. Elia, *Cambridge*

Metabolic abnormalities and wasting in human immunodeficiency virus infection.
Derek C. Macallan 373–380

Nutrition and gut barrier function *(Symposium Proceedings: 2–4 December 1997)*

Chair: M. Elia, *Cambridge*

Nutritional implications of gut overgrowth and selective decontamination of the digestive tract.
S. C. Donnell, N. Taylor, H. K. F. van Saene, A. Pierro & D. A. Lloyd 381–387

Bacterial translocation during enteral and parenteral nutrition.
J. Wesley Alexander 389–393
Nutritional modulation of gut inflammation.
Brian J. Rowlands & Keith R. Gardiner 395–401
Growth factors and gut function.
N. J. Seare & R. J. Playford 403–408

Leptin: energy regulation and beyond *(Symposium Proceedings: 18 February 1998)*

Chair: J. F. Andrews, *Trinity College, Dublin*

Leptin: energy regulation and beyond to a hormone with pan-physiological function.
J. F. Andrews 409–411
Regulation of leptin production: a dominant role for the sympathetic nervous system?
Paul Trayhurn, Jacqueline S. Duncan, Nigel Hoggard & D. Vernon Rayner 413–419
Leptin and reproduction.
Nigel Hoggard, Leif Hunter, Paul Trayhurn, Lynda M. Williams & Julian G. Mercer 421–427
Overview: neurobiology of OB protein (leptin).
L. Arthur Campfield & Françoise J. Smith 429–440
Localization of leptin receptor splice variants in mouse peripheral tissues by immunohistochemistry.
R. De Matteis, K. Dashtipour, A. Ognibene & S. Cinti 441–448
Peripheral metabolic actions of leptin.
Michael A. Cawthorne, Nicholas M. Morton, Anna L. Pallett, Yong-Ling Liu & Valur Emilsson 449–453
Effects of leptin on mitochondrial proton leak and uncoupling proteins: implications for mammalian energy metabolism.
Richard K. Porter & J. Fred Andrews 455–460
Leptin production in human adipose tissue.
Simon W. Coppack, Jonathan H. Pinkney & Vidya Mohamed-Ali 461–470
ob gene mutations and human obesity.
Sadaf Farooqi, Harald Rau, Jonathan Whitehead & Stephen O'Rahilly 471–475
Human and clinical perspectives on leptin.
Werner F. Blum, Piera Englaro, Andrea M. Attanasio, Wieland Kiess & Wolfgang Rascher 477–485

Lipids and the immune system *(Symposium Proceedings: 5 December 1997)*

Chairs: P. C. Calder, *University of Southampton,* **L. S. Harbige,** *University of Greenwich,* **W. J. Morrow,** *St Bartholomew's Hospital, London*

Dietary fatty acids and lymphocyte functions
Philip C. Calder 487–502
n-3 Polyunsaturated fatty acids and immune function
Dayong Wu & Simin Nikbin Meydani 503–509
Monounsaturated fats and immune function
Parveen Yaqoob 511–520
In vitro and *in vivo* effects of *n*-3 polyunsaturated fatty acids on human monocyte function
David A. Hughes 521–525
The effects of dietary *n*-3 polyunsaturated fatty acids on neutrophils
Richard I. Sperling 527–534
Dietary lipids and the inflammmatory response
R. F. Grimble 535–542
The effects of dietary lipids on gene expression and apoptosis
Gabriel Fernandes, Dean A. Troyer & Christopher A. Jolly 543–550

Phospholipase A_2 (*EC* 3.1.1.4) and D (*EC* 3.1.4.4) signalling in lymphocytes
Michael J. O. Wakelam & Margaret M. Harnett 551–554
Dietary *n*-6 and *n*-3 fatty acids in immunity and autoimmune disease
Laurence S. Harbige 555–562
n-6 and *n*-3 Essential fatty acids in rheumatoid arthritis and other rheumatic conditions
J. J. F. Belch & A. Muir 563–569
The anti-cachectic effect of fatty acids
Matthew D. Barber, James A. Ross & Kenneth C. H. Fearon 571–576
Use of fish oil to prevent graft rejection
Helmut Grimm, Friedrich Grimminger, Stephan Korom & Werner Seeger 577–585

Nutrition and the elderly *(Symposium Proceedings: 19 February 1998)*

Chair: N. P. Kennedy, *Trinity College, Dublin*

Protein–energy malnutrition in older subjects
John E. Morley 587–592
Malnutrition or healthy senescence
W. Cameron Chumlea, Bruno Vellas & Shumei S. Guo 593–598
Nutrition assessment methods for the older Irish adult in the clinical and community settings
Ruth P. Charles 599–602

Taste, flavour and palatability *(Symposium Proceedings: 6–7 April 1998)*
Chairs: Anne de Looy, *Queen Margaret College*; **Terry Kirk,** *Queen Margaret College*; **Carrie Ruxton,** *The Sugar Bureau, London*

Taste and flavour perception
Margaret P. Woods 603–607
Taste, palatability and the control of appetite
Martin R. Yeomans 609–615
Development of food acceptance patterns in the first years of life
Leann L. Birch 617–624
Taste and appetite regulation in the elderly
Marion M. Hetherington 625–631
Clinical undernutrition states and their influence on taste
H. I. M. Davidson, R. M. Pattison & R. A. Richardson 633–638
Taste and flavour: their importance in food choice and acceptance
Jane E. Clark 639–643

Abstracts of Communications

The effects of ageing, vitamin D and growth hormone on ectopic bone formation in the rat.
Kevin Cashman & James C. Fleet 2A
The effect of copper sulphate supplementation on fibrinolytic factors in healthy subjects.
M. S. Faughnan, M. Bonham, A. McKeown, J. M. O'Connor, E. Turley, J. Coulter, W. S. Gilmore & J. J. Strain 2A
Teas and wines as potentially important sources of dietary antioxidants; an in *vitro* comparison study.
I. F. F. Benzie & J. J. Strain 3A
Is dietary consumption of fruit and vegetables reflected in the plasma carotenoid profiles of older people?
Y. Carroll, B. Corridan & P. A. Morrissey 3A
Carotenoids and immune response in elderly people.
Bernice M. Corridan, Maurice P. O'Donohue & Patrick A. Morrissey 4A

Quercetin levels in plasma and resistance of plasma to oxidation after fried onion breakfast.
G. T. McAnlis, J. McEneny, J. Pearce & I. S. Young 4A
Effects of cholesterol oxidation products on DNA content and membrane bound enzyme activities in Chinese hamster ovary cells.
R. M. Sisk, A. M. Wilson & N. M. O'Brien 5A
Flavonoids: their protective role in cholestan-3β-5α-6β-triol induced toxicity *in vitro*.
S. A. Aherne, A. M. Wilson & N. M. O'Brien 5A
Effects of caffeine on performance, metabolism and reaction times during endurance exercise in man.
Johanna McLoughlin, Bernard. Donne & J. F. Andrews 6A
The effects of altered fat and carbohydrate availability on some peripheral indices of central fatigue during cycling exercise in trained humans.
Y. P. Pitsiladis, I. Davidson, I. Smith, A. Strachan & R. J. Maughan 6A
Diurnal and diet-induced changes in skeletal muscle function in normal subjects.
A. Cunliffe, D. Goldhill, O. Obeid & J. Powell-Tuck 7A
The effect of prolonged exercise on protein metabolism in top triatheletes during carbohydrate ingestion.
Anton J. M. Wagenmakers, Daphne L. E. Pannemans, Asker E. Jeukendrup, Annemie P. Gijsen, Joan M. G. Senden, David Halliday & Wim H. M. Saris 7A
Muscle glycogen utilization during mild and severe exercise, hyperglycaemic with and without insulin.
H. Mohebbi, M. A. Keegan, I. T. Campbell, C. T. Best, D. A. Sperry, D. P. Maclaren & A. McArdle 8A
Exogenous carbohydrate oxidation from ingested drinks during prolonged exercise in a cold environment in man.
S. D. R. Galloway, S. A. Wootton, J. L. Murphy & R. J. Maughan 8A
Metabolic and performance-related responses during endurance exercise following high-fat and high-carbohydrate meals.
Helena A. Whitley, S. M. Humphreys, I. T. Campbell, M. Keegan, T. Jayanetti, D. Sperry, D. M. Maclaren, T. Reilly & K. N. Frayn 9A
Influence of carbohydrate-electrolyte beverage feedings during recovery, on subsequent utilisation during exercise: the use of naturally enriched [^{13}C] glucose.
J. L. J. Bilson, J. L. Murphy, A. J. Allsopp, S. A. Wootton & C. Williams 9A
Perceived barriers to healthy eating among nationally-representative samples of European adults.
Mary Kearney, John M. Kearney & Michael J. Gibney 10A
Prevalence of undernutrition and weight loss changes during the course of hospitalization among patients admitted to two Dublin hospitals.
C. Corish, P. Flood, S. Mulligan & N. P. Kennedy 10A
Daily energy expenditure in free-living children: comparison of Caltrac motion sensors with the doubly-labelled water method.
L. C. Greene, M. B. E. Livingstone, A. F. McGloin, S. E. Webb, S. A. Jebb & A. M. Prentice 11A
Day-to-day and meal-to-meal variation in energy intake in children.
Aileen F. McGloin, M. B. E. Livingstone, Lucy C. Greene, Sandra E. Webb, Susan A. Jebb & Andrew M. Prentice 11A
Changes in plasma lipid profiles in response to the fat content of an evening meal persist during the following day.
R. A. Henderson, G. E. Vist & R. D. E. Rumsey 12A
Baseline variability of non-esterified fatty acids (NEFA).
Cara A. Prior, Helen M. Roche & Michael J. Gibney 12A
The administration of a β_3-adrenergic agonist decreases leptin expression in a diet-induced obesity model.
B. Berraondo, G. Frühbeck, A. Marti, M. P. Fernandez-Otero & J. A. Martinez 13A
Effects of glycated and non-glycated cholecystokinin-8 on appetite control in mice.
F. P. M. O'Harte, C. M. N. Kelly, M. Mooney & P. R. Flatt 13A

Effects of exercise training on total plasma cholesterol concentrations and rates of cholesterol synthesis.
M. L. Thomason, P. W. Watt, P. W. Patel & M. J. Rennie 14A
The decrease in postprandial lipaemia evident after a bout of exercise is independent of substrate utilization during the exercise.
D. Malkova, R. J. Bowness, S. L. Herd & A. E. Hardman 14A
Effect of a pre-exercise bar rich in β-glucan on gastrointestinal transit time and blood glucose.
V. Ribordy, I. Meirim, C. Piguet-Welsch, A. Thelin-Doerner & J. Decombaz 15A
Iron status and habitual physical activity in UK adolescent girls.
Ruth Ash & Michael Nelson 15A
Iron status in a group of sportsmen and women belonging to the National Institute of Physical Education (Spain).
Anne M. Requejo, Rosa M. Ortega, Sonsoles Ysart Y. Alvarez de Toledo, Elena Quintas, Ana María López-Sobaler, Pedro Andrés, María Jesús Gaspar & Guadalupe Garrido 16A
Lack of effect of long-term antioxidant supplementation on incidence of upper-respiratory-tract infections in athletes.
Mikael Fogelholm, Tommi Vasankari, Patrik Borg, Riikka Katila & Timo Tuomi 16A
Nutrition, physical activity and immunocompetence in an aged Spanish group.
P. Varela, P. García-García, R. M. Ortega, E. Quintas & A. M. Requejo 17A
The effect of acute dietary creatine supplementation upon indices of renal, hepatic and haematological function in human subjects.
Dean A. Sewell, Tristan M. Robinson, Anna Casey & Paul L. Greenhaff 17A
Urinary caffeine concentration after coffee consumption and heat dehydration.
A. Chambaz & J. Decombaz 18A
Changes in measures of fatigue in normal subjects following meals with a high protein or fat content.
A. Cunliffe, I. Lamplough, R. Obra, O. Obeid & J. Powell-Tuck 18A
The response of energy intake and macronutrient balance to manipulation of physical activity levels in lean men.
M. B. Gilsenan, P. R. Murgatroyd, F. E. Leahy, G. R. Goldberg & A. M. Prentice 19A
The effect of exercise on subsequent feeding behaviour.
J. H. Lavin, N. W. Read, J. Nwajiaku, P. R. Stafford & S. J. French 19A
Comparison of the short-term effects of exercise on food hedonics and food consumption in dietary restrained and unrestrained females.
Anne Lluch, Neil A. King, Zara J. Lipsey & John E. Blundell 20A
Food choice at a buffet meal 1 h after physical exercise.
J. Decombaz, C. Bovier & G. Reuteler 20A
The influence of place of residence on the intake of energy and nutrients in a group of Spanish soccer players of lower division teams.
Rosa M. Ortega, Ana M. Requejo, Marcela González-Gross, Ana María López-Sobaler, Elena Quintas, Pedro Andrés & Miguel Angel Herrador 21A
Diet and food intake of sled dogs during a multi-stage race.
J. Decombaz, M. Jambon, R. Wright Champaine & O. Ballevre 21A
Determining consumers preferences using sensory evaluation.
J. M. Murray, C. M. Delahunty, P. A. Morrissey, M. Henry & J. Bogue 22A
Comparative diet and lifestyle study between Irish and West Virginian women.
G. Nolan, S. Friel & C. Kelleher 22A
Process evaluation of a health promotion educational resource material for children: Galway Health Project.
M. O'Donnell, U. Fallon & C. Kelleher 23A
Diet diaries and difficulty with the "three R's" in a 43-year-old British birth cohort.
G. M. Price, A. A. Paul & M. E. J. Wadsworth 23A
Use of the Irish household budget survey for food availability estimation.
S. Friel, C. Kelleher & the DAFNE II Group 24A

Gastrointestinal transit in rats adapted to a high-fat diet.
A. Shafat & R. D. E. Rumsey 24A
Carotid atheromatous plaques, intimal-medical thicknesses and plasma homocysteine levels in asymptomatic post-menopausal women.
C. P. Jamieson, O. A. Obeid, E. R. E. Denton, E. P. Morris, J. Powell-Tuck & J. Rymer 25A
Plasma homocysteine shows no response to altered dietary methionine intake.
M. Ward, H. McNulty, B. O'Neill, J. M. McPartlin, J. J. Strain, D. Weir & J. M. Scott 25A
The thermolabile 5, 10-methylenetetrahydrofolate reductase (MTHFR) gene, mild hyperhomocysteinaemia and B-group vitamins.
J. V. Woodside, D. L. Harmon, J. W. G. Yarnell, D. McMaster, I. S. Young, E. E. McCrum, K. F. Gey & A. E. Evans 26A
Differences between smokers and non-smokers in the intestinal absorption of carotenoids.
M. E. O'Neill & D. I. Thurnham 26A
Effect of dietary fibres on vitamin A, vitamin E and folate status in rats.
J. Gibbs & P. J. A. Sheehy 27A
Effect of different dietary fat sources on immune function in healthy males and females.
P. M. Kirk, B. M. Hannigan, V. J. McKelvey-Martin & J. J. Strain 27A
Induction of alkali labile lesions by oxidised derivatives of cholesterol in Chinese Hamster Ovary cells as measured by the Comet assay.
J. A. Woods & N. M. O'Brien 28A
Randomised controlled trial of supplementation of Efacal v. calcium on bone mineral density in post-menopausal women.
E. Joan Bassey, Julie J. Littlewood & Brenda E. Reynolds 28A
The effect of dietary calcium intake on pyridinium crosslinks of collagen in the rat.
Annette Creedon, Albert Flynn & Kevin Cashman 29A
The combined effect of exercise and dietary modification on the fitness level and body composition of cardiac rehabilitation patients.
S. M. King, S. David, H. Newton, M. Maguire, F. Rafferty & J. H. Horgan 29A
Natural sporting ability, birth weight and predisposition to cardiovascular disorders: study of British former soldiers.
Thang S. Han & Michael E. J. Lean 30A
Weight-and-diet concerns in Finnish female and males athletes.
Mikael Fogelholm & Hannele Hiilloskorpi 30A
The effects of sodium ingestion on heat acclimation responses.
A. J. Allsopp, R. M. Sutherland & S. A. Wootton 31A
Net and unidirectional water fluxes from four oral rehydration solutions perfused into the intact human jejunum.
J. B. Leiper & R. J. Maughan 31A
The effect of drink composition on deuterium accumulation in men with spinal cord lesion.
D. Ball, I. G. Campbell, J. B. Leiper & R. J. Maughan 32A
A comparison of the daily water turnover rates in independent and dependent elderly.
J. Phillimore, J. Leiper, W. R. Primrose, C. S. Primrose & R. Maughan 32A
Differential effects of supplementation with vitamin E analogue on antioxidant enzyme expression in human skin fibroblasts exposed to ultraviolet B.
Sandra A. Jones, Catherine I. A. Jack & Malcolm J. Jackson 34A
Increased cooking stability of all-*trans*-β-carotene in red palm oil using *Murraya koenigii* or *Cnidoscolus aconitifolius* leaves.
G. Lietz, C. J. K. Henry & A. M. Tomkins 34A
Plasma total homocysteine in 972 people aged 65 years and over, representative of Britain, in a National Diet and Nutrition Survey.
C. J. Bates, M. A. Mansoor, J. C. Van Der Pols, A. Prentice, T. J. Cole & S. Finch 35A
Folic acid status and uracil misincorporation in human DNA.
Susan J. Duthie & Paul McMillan 35A

Dietary flavonoids and DNA damage in isolated human lymphocytes: genotoxicity and cytoprotection.
Susan J. Duthie & Victoria L. Dobson 36A
Features of the iron binding antioxidant potential of preterm baby plasma.
A. Loban, S. C. Yong, A. T. Gibson & H. J. Powers 36A
A method to measure haemoglobin turnover rate.
J. M. Hibbert, P. S. Swerdlow, D. C. Gore, L. Wolfe, F. Johoor & A. A. Jackson 37A
Association between present dietary intake and bone health in post-menopausal and elderly Scottish women.
S. A. New, J. A. Tredger, R. Smith, M. C. Greenacre, D. A. Grubb & D. M. Reid 37A
Glucose tolerance is affected by previous consumption of a high-fat meal.
R. A. Henderson, G. E. Vist & R. D. E. Rumsey 38A
Gastrointestinal transit adaptation to force-feeding high-fat meals in adult rats.
A. Shafat & R. D. E. Rumsey 38A
A comparison of lipoprotein lipase activity and gene expression in human and rat adipose tissue.
Clare Chapman, C. Brooks & M. C. Murphy 39A
Influence of increased long-chain *n*-3 polyunsaturated fatty acid (PUFA) intakes on the insulin sensitivity of glucose disposal in middle-aged men.
A. C. Fereday, E. Ah-Sing, A. Irvine, L. M. Morgan, K. A. Slevin, C. M. Williams & J. Wright 39A
Influence of increased long-chain *n*-3 polyunsaturated fatty acid (PUFA) intakes on postprandial lipaemia in middle-aged men.
K. A. Slevin, A. C. Fereday, E. Ah-Sing, A. Irvine, L. M. Morgan, C. M. Williams & J. Wright 40A
Enrichment of chylomicron-triacylglycerol during the postprandial period following oral administration of [1-^{13}C]palmitic acid, [1-^{13}C]stearic acid and [1-^{13}C]oleic acid.
S. A. Wootton, A. E. Jones, M. Stolinski, A. Hounslow & J. L. Murphy 40A
The gastrointestinal handling and postprandial metabolism of [1-^{13}C]stearic acid in healthy women.
A. E. Jones, A. R. Pearce, M. Stolinski, A. Hounslow, J. L. Murphy & S. A. Wootton 41A
An *in vitro* study of glycerol-3-phosphate dehydrogenase (E.C. 1.1.1.8; GPDH) activity as a marker of triacylglycerol synthesis in ovine adipocytes taken from animals at different stages of development.
R. H. Bennett, R. G. Vernon & B. Soret 41A
Fish oil supplementation does not affect plasma antioxidant status.
Parveen Yaqoob, Hicran S. Pala, Mario Cortina-Borja, Eric A. Newsholme & Philip C. Calder 42A
Amino acid and peptide absorption across the ovine gastrointestinal tract: a dietary comparison.
L. Bernard, J. C. MacRae, D. L. Wilson, L. Bruce & F. R. C. Backwell 42A
Is crypt cell proliferation a reliable bio-marker of intestinal cancer risk?
J. C. Mathers, M. Kooshkghazi, J. Coaker, S. Williamson, A. Kartheuser, J. Burn & R. Fodde 43A
Acarbose increases caecal short-chain fatty acids (SCFA) and uptake into portal vein.
M. Dehghan Kooshkghazi & J. C. Mathers 43A
Expression of the amino acid transporter GLYT1 in human small bowel and the intestinal epithelial cell line Caco-2.
G. R. Christie, D. Walker & B. H. Hirst 44A
The positive feedback effect of the dipeptide GlyGln on its own absorption in the gastrointestinal tract by the carrier protein hPepT1.
J. D. Picker, D. Walker, B. H. Hirst & J. Hall 44A
APC gene controls crypt fission and not cell division in mice with multiple intestinal neoplasia (MIN).
H. Wasan, N. Mandir, H. S. Park, N. A. Wright, W. Bodmer & R. A. Goodlad 45A
Dietary fibre and the intestinal microflora, effects on intestinal morphometry and crypt branching.
J. S. McCullough, B. Ratcliffe, N. Mandir, K. E. Carr & R. A. Goodlad 45A
Keratinocyte growth factor (KGF) and gut growth, cytoprotection cell migration.
R. J. Playford, N. Mandir, T. Marchbank, A. Higham, K. Meeran, M. A. Ghatei & S. R. Bloom 46A

Separation of human plasma lipoprotein subclasses.
Bruce A. Griffin & N. P. Furlonger 46A
Acute metabolic effects of freshly cooked v. cooked and chilled potatoes.
Mark Daly, Michelle Townsley, Catherine Vale, Alison Littlefield, K. G. G. M. Alberti, Mark Walker, Geoff Livesey 47A
Time course of the effects of fish oil feeding on blood cholesterol concentrations in the rat.
N. M. Jeffery, E. A. Newsholme & P. C. Calder 47A
Breakfast composition, waist:hip ratio (WHR) and cardiovascular (CVD) risk factors in middle-aged men.
D. L. Frape, N. R. Williams, Jayshri Rajput-Williams, B. W. Maitland, C. Marshall, C. R. Palmer, R. J. Fletcher 48A
The effects of two commercially available spreads on plasma lipoproteins in human subjects.
Sarah E. Schenker, Jennifer M. Garry, Jacqueline C. Brown, Allan Gaw, David A. Hughes & John C. Stanley 48A
Effects of two types of dietary fish oil on blood lipid levels and lymphocyte proliferation in the rat.
N. M. Jeffery, P. Sanderson, P. Yaqoob, E. A. Newsholme & P. C. Calder 49A
Effect of lactose induced diarrhoea on macronutrients digestibility and immune function in well-nourished and undernourished rats.
Anna M. Cioccia, Ester L. Arciniegas & Patricio Hevia 49A
γ-Linolenic acid inhibits the expression of the major histocompatibility complex (MHC) class II molecule, HLA-DR, on human monocytes *in vitro*.
David A. Hughes, Elizabeth S. Glasscock & Andrew C. Pinder 50A
Dietary fish oil decreases the production of pro-inflammatory mediators by murine macrophages.
F. A. Wallace, S. J. Neely, E. A. Miles & P. C. Calder 50A
Differences in specific food antibody levels in asthmatic and healthy children.
Noor Aini M. Yusoff, S. M. Hampton, A. S. Mallik & Jane Morgan 51A
Fluoride intake in 4 year-old Iranian children.
Fatemeh V. Zohouri & Andrew J. Rugg-Gunn 51A
Similar recovery of $^{13}CO_2$ and $^{14}CO_2$ in breath during infusion of bicarbonate labelled with ^{13}C and ^{14}C simultaneously.
N. J. Fuller, R. M. McDevitt, M. Harding, W. A. Coward & M. Elia 52A
Reduced glycine flux with age and non-insulin-dependent diabetes mellitus (NIDDM) is associated with increased urinary excretion of 5-L-oxoproline.
A. A. Jackson, F. Jahoor, J. Morlese, F. I. Bennett, C. Persaud & T. E. Forrester 52A
Transfer of ^{15}N from orally administered lactose [$^{15}N^{15}N$]ureide to dispensable amino acids isolated from human urine and faecal bacteria.
Neil R. Gibson, Rafe Bundy, Angela Hounslow, Stephen A. Wootton, D. Joe Millward & Alan A. Jackson 53A
Plasma glycine flux falls as oral sodium benzoate acutely depletes the glycine pool.
Glenn P. Weavind & Alan A. Jackson 53A
Beliefs, attitudes and behaviour in relation to supplement use in the UK Women's Cohort Study (UKWCS).
Sara Kirk, Amanda Woodhouse, Mark Conner & the UKWCS Steering Group. 54A
Beef consumption and nutrient intake: analysis of the UK Women's Cohort Study.
Janet Cade, Claire Calvert, Jennifer Barrett & the UK Women's Cohort Study Steering Group 54A
Consumer perceptions of starchy foods: Possible barriers towards increasing complex carbohydrate consumption.
Karin Stubenitsky & David J. Mela 55A
Sensory variety: effect on appetite, food intake and body weight in lean and overweight men.
A. M. Johnstone, N. Mazlan, S. E. Mbaiwa, R. J. Stubbs & C. A. Reid 55A
Differences in dietary intake and food selection between hospital patients and day-centre visitors: implications for supplementation.
M. Lumbers, M. C. Murphy, C. A. R. Pither, M. H. Creedon, M. W. J. Older & S. A. New 56A

Measurement of nutritional intake and nutritional status of free living elderly: a pilot study.
N. Saini, A. M. Miller, S. M. Maxwell, L. Dugdill & A. F. Hackett 56A
Changes in dietary intake associated with marriage or cohabitation.
Annie S. Anderson, Debbie Kemmer, D. W. Marshall & Susan Eley 57A
Dietary changes amongst overseas students in Oxford.
S. L. Reeves & C. J. K. Henry 57A
Nutritional implications of secondary school pupils' lunchtime meal choices.
Carol Noble, Anita Eves, Michael Corney, Michael Kipps & Margaret Lumbers 58A
The effect of television advertising on the food choices of children from different social backgrounds.
Elizabeth Hitchings & Paula J. Moynihan 58A
A study of food habits and nutritional status among rural Javanese pregnant women.
Katrina M. Martin, Jane Earland & Bambang Suprapto 59A
Adequacy of dietary energy and nutrient intakes among rural elderly Malays.
Suzana Shahar, Jane Earland & Suriah A. Rahman 59A
Dietary assessment of patients undergoing coronary artery bypass grafting.
D. Mason, C. J. K. Henry & R. Pillai 60A
Multiple dietary goals as set by the Scottish Office may not be achievable.

Relationships between physical activity, disease activity and quality of life in inoperable lung cancer.
J. A. Kramer, E. Crowe, O. Dewit & M. Elia 106A
Safety of glutamine administration to Gambian infants.
P. G. Lunn, D. Campbell & M. Elia 106A
The stability and cytoprotective effects of N-acetylcysteine in cervical cancer patients undergoing radiotherapy.
P. B. Aguilar, J. Faintuch & G. Hardy 107A
The implementation of guidelines: another drain on the NHS purse?
N. Reynolds, J. P. Baxter & C. R. Pennington 107A
Nutritional knowledge and request for parenteral nutrition in a tertiary referral paediatric hospital.
S. Murray, I. Smith, H. Nawrocka & A. Pierro 108A
Effect of nasogastric tube feeding regimens on voluntary food intake and hunger in healthy volunteers.
R. J. Stratton, R. J. Stubbs & M. Elia 108A
Bacterial contamination of feed during home enteral tube feeding.
C. J. Shaw, I. Matthews, M. Farrington, C. Baldwin, S. Cottee, O. Dewit & M. Elia 109A
Circulating concentrations of vitamins D and C in a cross-sectional group of patients on long-term tube feeding at home or in residential care.
C. Baldwin, J. Shaw, O. Dewit & M. Elia 109A
The role of British gastroenterologists in the provision of artificial nutrition support.
C. Stockdale & C. R. Pennington 110A
An investigation into the effect of riboflavin deficiency induced post-weaning on the morphology and cytokinetics of the rat small intestine.
E. A. Williams, R. D. E. Rumsey & H. J. Powers 110A
A comparison of estimated energy requirements with resting metabolic rate measured using indirect calorimetry in hospital patients.
M. A. Keegan, A. Garrett, Y. Bradburn & I. T. Campbell 111A
Muscle glycogen and electrolyte concentrations in multiple organ failure.
I. T. Campbell, C. J. Green & M. J. Jackson 111A

Comparison of body composition analysis using whole body magnetic resonance imaging, bioimpedance and skinfold anthropometry in lean and obese healthy and Prader-Willi syndrome subjects.
E. L. Thomas, A. E. Brynes, A. P. Goldstone, N. Saeed, J. V. Hajnal, G. Frost, A. Holland, S. R. Bloom & J. D. Bell 112A
Enteral feeding tolerance in critically ill paediatric patients given adult formula.
R. M. Taylor, A. Baker, P. Cheeseman, V. R. Preedy, F. Bartlett & G. K. Grimble 112A
Improved nutritional awareness alone does not improve recording practices of weight and height by nurses working on acute medical and care of the elderly wards.
M. Cooney, C. Jones & R. D. Griffiths 113A
Home parenteral nutrition:- review of protocols to prevent catheter occlusion.
J. M. Tait, J. P. Baxter & C. R. Pennington 113A
Refeeding syndrome: the need for practical guidelines.
H. M. Dewar & R. Horvath 114A
The alternative – dietary practice of a selected group of oncology patients receiving conventional medical treatment.
V. M. Swaby 114A
An examination of the effect of dietary sodium restriction on energy and protein intake in the treatment of ascites in cirrhosis.
C. T. Soulsby 115A
Health-related quality of life after percutaneous endoscopic gastrostomy.
E. Bannerman, J. Pendlebury, F. Phillips & S. Ghosh 115A
A team approach to the audit of nutritional care of oncology patients.
S. Harkess, V. Sherer & C. Steele 116A
A 1-year audit of home enteral feeding practice.
F. A. R. Gibson 116A
Energy intakes fail to meet requirements on texture modified diets.
A. E. Brynes, R. J. Stratton, L. Wright & G. S. Frost 117A
Survey of the use of supplements (sip feeds) in hospitals in the south of England.
S. Brosnan, J. Munro, C. Hadfield, H. Rivers & B. Margetts 117A
Review of enteral and parenteral feeding practice between 1994 and 1996: maintaining positive change.
H. J. Peake, J. M. Stanford & G. S. Frost 118A
Standard renal parenteral nutrition does meet our patients' nutritional requirement.
F. Przygrodzka 118A
Home enteral tube-feeding in the community: are disabled children's rights to support services being denied?
R. J. Townsley & C. E. Robinson 119A
The role of the dietitian in optimizing nutrition support for the infant.
C. Jarvis 119A
Consumption of yoghurt containing modified fat increases satiety and reduces subsequent food intake.
A. A. Burns, L. Lindmark, M. B. E. Livingstone, Ú. Mullaney, I. Rowland & R. W. Welch 121A
Influence of dietary fat composition on postprandial plasma bile acid and cholecystokinin concentrations in premenopausal women.
V. Costarelli, T. A. B. Sanders & M. Jordinson 121A
Reproducibility of lipaemic, insulinaemic and glycaemic responses to a high-fat, mixed meal.
J. M. R. Gill & A. E. Hardman 122A
The effect of fish oil supplementation on fasting and postprandial lipid levels in individuals with an atherogenic lipoprotein phenotype (ALP).
A. M. Minihane, C. Paterson, C. Chapman, E. C. Leigh-Fairbank, N. Furlong, M. C. Murphy, J. W. Wright, B. A. Griffin & C. M. Williams 122A

The effects of soyabean isoflavones on plasma HDL concentrations in healthy male and female subjects.
T. S. Dean, J. O'Reilly, E. Bowey, H. Wiseman, I. Rowland & T. A. B. Sanders 123A
The influence of dietary isoflavones on markers of lipid peroxidation in healthy male and female volunteers.
J. O'Reilly, T. S. Dean, E. Bowey, I. Rowland, T. A. B. Sanders & H. Wiseman 123A
The effect of chronic acipimox administration on nutrient selection and energy balance following surgery.
A. R. Bosagh Zadeh & P. W. Emery 124A
Impact of maternal nutrient restriction in early to mid gestation on lamb size and insulin-like growth factor-1 (IGF-1) status at term.
L. Heasman, T. Stephenson & M. E. Symonds 124A
Prevalence of overweight and underweight in Chinese adolescent girls.
X. Du, H. Greenfield, D. R. Fraser & K. Ge 125A
Obesity and hyperleptinaemia in metallothionein-null mice.
J. H. Beattie, A. M. Wood, J. S. Duncan, I. Bremner & P. Trayhurn 125A
Increased circulating leptin levels after muscle gene transfer in normal mice.
A. Marti, F. J. Novo, E. Martinez-Anso & J. A. Martinez 126A
Leptin insensitivity in C57BL/6J mice fed on high-fat diets of differing composition.
D. V. Rayner, H. Walbank & P. Trayhurn 126A
Functional phenotypes: increased leptin and BMR as adaptive responses to a habitual high-fat (high energy) diet.
J. Cooling, J. Barth & J. Blundell 127A
Studies on the leptin system in adult human subjects from an Aberdeen population.
L. Thomas, J. Broom, S. Heys & P. Trayhurn 127A
The influence of information and extended sensory exposure on acceptance of reduced-fat products.
K. Stubenitsky, J. I. Aaron, S. L. Catt & D. J. Mela 130A
Weight status, taste preferences and dietary choice.
D. N. Cox, L. Perry, P. B. Moore, L. Vallis & D. J. Mela 130A
Lack of preference-reinforcing effects of different sugars.
A. Aherne, P. Polet, E. A. Atkinson, S. Stephens, J. E. L. Day & P. J. Rogers 131A
Are flavoured vegetables acceptable to adolescents?
W. L. Wrieden & I. Bürger 131A
Correlation between taste and toxicity of cassava (*Manihot esculenta* Crantz) roots.
L. Chiwona-Karltun, J. Mkumbira, J. Saka, L. Brimer, N. M. Mahungu, M. Bokanga & H. Rosling 132A
Validation of the Ramsey formula for estimation of energy requirements in children and adolescents with cystic fibrosis.
J. J. Reilly, J. M. Ralston, T. J. Evans, J. Wilkinson & J. Y. Paton 132A
Pattern and timing of excess weight gain in Scottish children treated for acute lymphoblastic leukaemia.
J. Ventham, J. J. Reilly, M. Donaldson & B. E. S. Gibson 133A
A 10-year follow-up of dietary change in Scotland.
C. Bolton-Smith & S. Ogston 133A
Dietary management in a work-site setting.
C. R. Hankey, D. O'Donohugue & M. E. J. Lean 134A
Iron intake and iron status in young children in Edinburgh.
A. M. Al-Othman, N. R. Belton & T. R. Kirk 134A
The fat content of yoghurts determines the release of flavour volatiles during eating.
M. S. Brauss, I. Cayeux, B. Harvey, R. S. T. Linforth & A. J. Taylor 135A
Errors in self-reported height and weight.
M. Woodward, C. Bolton-Smith & C. Morrison 135A

Effect of advice to simultaneously reduce both dietary fat and sugar, or advice to reduce dietary fat alone on body-weight status: results from a 6-month intervention study.
S. Drummond & T. R. Kirk 136A
Evaluation of the Scottish Health Survey Eating Habits Questionnaire to monitor Scottish Diet food targets.
M. E. J. Lean, S. Eley, A. S. Anderson, C. Morrison & C. Bolton-Smith 136A
Using electronic mail for monitoring compliance to Scottish dietary targets.
S. Eley & M. E. J. Lean 137A
Some micronutrient intakes of Scottish schoolchildren aged 5½ to 8½ years compared with intakes at age 1½ to 4½ years.
P. J. Longbottom, W. L. Wrieden, C. M. Pine & J. A. Davies 137A
Use and knowledge of food labels of shoppers in Glasgow.
S. Tessier, C. A. Edwards & S. Eley 138A
Nutritional status and growth in children with human immunodeficiency virus-1 infection in Romania.
P. M. Mathias, E. Ball, D. Duiculescu & P. Calistru 138A
Natural derivatives of phloridzin show potent antioxidant activity in human low density lipoproteins.
J. O'Reilly, T. Ridgway, G. Tucker & H. Wiseman 139A
Fasting levels of plasma bile acids in Asian vegetarians, Caucasian vegetarians and Caucasian omnivores.
V. Costarelli, T. A. B. Sanders & S. Reddy 139A
Calf serum immunoglobulin estimations requiring minimal laboratory facilities and skills.
K. T. Djang-Fordjour, R. G. Hemingway, C. Cameron & G. Fishwick 140A
Nutrient intakes of female adolescents attending a single-sex compared with a mixed secondary school.
S. T. Leech, Y. M. Ryan & M. A. T. Flynn 142A
A comparison of the dietary and lifestyle habits and nutritional knowledge of cardiology and non-cardiology hospital staff.
H. R. Casey, M. A. T. Flynn, S. King & J. H. Horgan 142A
Taurine modulates immune response, and reduces bacterial translocation and gut atrophy in a murine model of sepsis.
L. O'Flaherty, P. P. Stapleton, H. P. Redmond & D. J. Bouchier-Hayes 143A
Resting metabolic profile of patients with quiescent ulcerative colitis and comparison with controls.
E. J. Simpson, M. A. S. Chapman, D. Berry, A. T. Cole & I. A. MacDonald 143A
The evaluation of an undernutrition risk score to identify surgical patients at risk of malnutrition on admission.
M. Doyle, E. Barnes & M. Moloney 144A
Assessment of energy content of menus, energy intakes and wastage of food in two Irish teaching hospitals.
C. M. Browne & M. Moloney 144A
Nutritional characteristics of Irish patients undergoing resection of major carcinoma.
C. Corish, P. Flood, J. V. Reynolds & N. P. Kennedy 145A
Home enteral tube feeding: a retrospective review of discharges from a Dublin hospital over 6 years (1992–8).
E. McNamara, P. Flood & N. P. Kennedy 145A
Response of erythrocyte glutathione reductase activation coefficient (EGRAC) and plasma pyridoxal-5′ phosphate (PLP) to riboflavin supplementation (a pilot study).
S. M. Madigan, F. Tracey, H. McNulty, M. J. Eaton-Evans & J. J. Strain 146A
Relationship between riboflavin status, methylenetetrahydrofolate reductase (MTHFR) genotype and plasma homocysteine in healthy elderly subjects.
M. C. McKinley, H. McNulty, J. McPartlin, J. J. Strain, D. G. Weir & J. M. Scott 146A

Impact of methylenetetrahydrofolate reductase (MTHFR) genotype and folate status on plasma homocysteine levels in healthy male and female adults.
B. Wilson, H. McNulty, J. McPartlin, J. J. Strain, D. G. Weir & J. M. Scott 147A
Factors affecting the erythrocyte folate status of Irish female adolescents.
Y. M. Ryan, J. McPartlin, M. J. Gibney & M. A. T. Flynn 147A
The relationship between plasma and dietary phylloquinone (vitamin K_1) in Scottish adults.
C. Bolton-Smith, R. J. G. Price, S. T. Fenton, D. J. Harrington & M. J. Shearer 148A
The effect of β-carotene on repair of DNA strand breaks in a human tumour epithelial cell line (HepG2).
N. M. Millar, J. A. Woods & N. M. O'Brien 148A
Green tea and *in vivo* antioxidant status; post-ingestion changes in plasma ferric reducing/antioxidant power (FRAP) confirm absorption and systemic distribution of polyphenolic tea antioxidants.
I. F. F. Benzie, Y. T. Szeto & J. J. Strain 149A
Bioavailability of *n*-3 polyunsaturated fatty acids (*n*-3 PUFA) in microencapsulated fish oil.
S. Higgins, Y. Carroll & P. A. Morrissey 149A
Contribution of foods to *trans* fatty acid intake in a group of Irish adults.
M. M. Cantwell, M. J. Gibney, D. Cronin & M. A. T. Flynn 150A
Effect of genetic variation of apolipoprotein B (apoB) on postprandial lipidaemia.
I. L. Black, A. M. Tully, E. Noone, H. M. Roche, A. S. Whitehead & M. J. Gibney 150A
Postprandial lipaemia in response to sucrose intake in middle-aged men with CHD risk factors and matched controls.
A. E. Brynes, C. M. Edwards & G. S. Frost 151A
The postprandial cholesterol response is associated with fasting plasma triacylglycerol concentrations.
A. M. Tully, E. J. Noone, H. M. Roche & M. J. Gibney 151A
The effect of a fat rich test meal on cholesteryl ester transfer protein mass and activity in normolipidaemic individuals during postprandial lipaemia.
E. Noone, H. M. Roche, A. M. Tully & M. J. Gibney 152A
Confirmation of reduced energy intake after consumption of yoghurt containing Olibra™.
A. A. Burns, M. B. E. Livingstone, R. W. Welch, L. Lindmark & I. R. Rowland 152A
Effect of protein and/or carbohydrate ingestion on whole-body creatine retention during creatine supplementation in human subjects.
G. R. Steenge, L. J. Simpson, I. A. MacDonald & P. L. Greenhaff 153A
Comparison between the *in situ* and the Cornell methods of estimating protein degradability in a variety of ruminant feedstuffs.
F. K. Avornyo & E. L. Miller 153A
Effects of isoenergetic supplements of starch, sucrose, lactose and whey permeate on rumen metabolism and digestion.
A. Hussain & E. L. Miller 154A
Intake of selected nutrients from vitamin and mineral supplements by subjects in the EPIC Study, Norfolk, UK.
A. A. Welch, A. A. Mulligan, R. N. Luben & S. A. Bingham 154A
The effect of suboptimal and deficient dietary magnesium intakes on bone composition and bone metabolism in the rat.
A. Creedon, A. Flynn & K. Cashman 155A
Use of glutathione peroxidase-1 (GPX1) activity and mRNA levels and other selenium-dependent parameters to assess selenium requirements in female rats throughout the life-cycle.
R. A. Sunde, K. M. Thompson, J. K. Evenson & S. L. Weiss 155A
The effect of dietary copper on bone metabolism in healthy adult males.
A. Baker, A. Flynn, K. Cashman, L. Harvey, G. Majask-Newman & S. Fairweather-Tait 156A

No effect of copper supplementation on mononuclear leukocyte DNA damage as assessed by the Comet assay: FOODCUE Project.
J. M. O'Connor, M. P. Bonham, E. Turley, A. McKeown, V. J. McKelvey-Martin, C. A. Kehoe, M. S. Faughnan, J. Coulter, J. Eaton-Evans, M. Chopra, W. S. Gilmore & J. J. Strain 156A
Copper supplementation and LDL susceptibility to oxidation: FOODCUE Project.
M. Bonham, E. Turley, A. McKeown, J. M. O'Connor, W. S. Gilmore, M. Chopra, J. Eaton-Evans, V. J. McKelvey-Martin & J. J. Strain 157A
Urinary neopterin as a marker of infection and the lack of influence of vitamin A supplementation in infants.
S. F. Tsang, L. C. Dowey, F. S. W. McCullough, C. A. Northrop-Clewes, P. I. Paracha, B. S. Das & D. I. Thurnham 157A
Comparison of breast-milk concentrations and dietary intakes of retinol, carotenoids and α-tocopherol between Irish and Pakistani mothers.
L. M. A. McDermott, F. S. W. McCullough, P. I. Parcha, C. A. Northrop-Clewes & D. I. Thurnham 158A
Vitamin D receptor gene polymorphisms and circulating osteocalcin in healthy young Irish women.
D. Sheehan, T. Bennett, A. Flynn & K. Cashman 158A
The effect of amount and composition of added oil on the ability to trap the geometric isomers of lycopene from tomato juice after boiling.
A. E. Taggart, S. Beattie, M. Chopra & D. I. Thurnham 159A
The effect of ascorbic acid supplementation on H_2O_2-mediated nuclear factor κB (NFκB) activation in human lymphocytes.
L. A. Brennan, G. M. Morris, Y. A. Barnett & B. M. Hannigan 159A
Effects of oleic acid, eicosapentaenoic acid and docosahexaenoic acid on genotoxin-induced frequencies of sister chromatid exchanges (SCE) in Indian Muntjac fibroblasts.
S. Higgins, M. H. Vasconcelos & N. M. O'Brien 160A
The effect of the citrus phytochemicals limonin and nomilin on xenobiotic metabolizing enzyme activity in the rat liver and lung.
C. Jewell & N. M. O'Brien 160A
Inter-individual variation in soyabean isoflavone metabolism: the role of habitual diet.
E. A. Bowey, I. R. Rowland, H. Adlercreutz, T. A. B. Sanders & H. Wiseman 161A
Absorption of flavonol conjugates in ileostomy subjects.
A. Cahill, M. S. McDonald, A. Crozier & M. E. J. Lean 161A
The effect of flavonoids on background and hydrogen peroxide-induced DNA damage.
S. A. Aherne, J. A. Woods & N. M. O'Brien 162A
Dietary intake of selenium in the UK.
S. M. Church, G. E. Smithers, H. Crews & S. Elahi 162A
Effects of replacing starch with whey permeate, lactose and sucrose under steady-state conditions on rumen metabolism and digestion.
A. Hussain & E. L. Miller 163A
A spreadsheet programming model for linear and stochastic feed formulation problems.
M. Y. Baig & E. L. Miller 163A
Macronutrient intake in normal-weight children at high and low risk of obesity.
A. F. McGloin, M. B. E. Livingstone, L. C. Greene, S. E. Webb, J. M. A. Gibson, S. A. Jebb & A. M. Prentice 164A
Trans fatty acid levels in adipose tissue of Irish adults.
L. Hogan & K. M. Younger 164A
Can patients' knowledge of their own weight and height be used to replace measured weight and height in the calculation of BMI?
M. Doyle, C. Corish, P. Flood & N. P. Kennedy 165A
Obesity management in general practice: a pilot qualitative study of attitudes of general practitioners and practice nurses in Glasgow.
S. Tessier & S. W. Mercer 165A

Obesity and weight management training needs of general practitioners and practice nurses.
J. F. Murray, S. Eley, P. Haughney & M. E. J. Lean 166A
Patient satisfaction, nutrient content and actual intake of food served in two Dublin teaching hospitals.
F. Rush & M. Moloney 166A
Nutrient intake, income and dietary variety in adults.
S. Eley, A. S. Anderson, L. Maher & M. E. J. Lean 167A
A comparison of expectations about high- and low-fat breakfasts.
M. Reid & R. Hammersley 167A
Evaluation of the dental health intervention programme, DEN TV.
S. Friel, S. Comer, G. Nolan, A. Hope & C. Kelleher 168A
Body weight concerns of 13-year-old Irish boys and girls.
S. Sinnott, Y. M. Ryan & M. A. T. Flynn 168A
The effect of in-store music on consumer choice of wine.
C. M. Ryan, C. A. Northrop-Clewes, B. Knox & D. I. Thurnham 169A
Investigating consumer perceptions of the sensory characteristics of ten diverse cheese varieties.
J. B. P. Lawlor, C. M. Delahunty & P. A. Morrissey 169A
The effect of α- and β-carotene on the survival of human HepG2 and HEL cells challenged with hydrogen peroxide and *tert*-butyl hydroperoxide.
J. A. Woods & N. M. O'Brien 170A
Comparison of Three Different Drying Temperatures for the Preservation of Single Cell Gel Electrophoresis (Comet) Assay Slides.
K. A. O'Leary, R. P. McCarthy, J. A. Woods & N. M. O'Brien 170A
Comparison of gut integrity of hospitalised Indian infants admitted with gastrointestinal and respiratory infections.
F. S. W. McCullough, C. A. Northrop-Clewes, B. S. Das & D. I. Thurnham 171A
